

The background of the entire page is a high-resolution, close-up image of a marble surface. It features a complex pattern of veins in various shades of grey, from light to dark, crisscrossing across a predominantly white or very light grey base. The veins are irregular and organic, creating a sense of depth and texture.

< ABOUT US

Since 1957, Mondial Marmi has been providing fine materials, thanks to the tradition and expertise passed down by its founder, Alfonso Tini.

Our attention to detail and focus on customer needs ensure professionalism and high-quality raw materials. With offices in Italy, Brazil, and the United States, we are able to respond quickly to complex requests

< OUR
SOLUTIONS

- Technical consultancy and material selection
- Natural stone supply and material sourcing
- Turnkey solutions: from concept to installation
- Custom marble and stone fabrication
- Artistic surfaces and mosaic applications

Expertise

< DESIGN
APPROACH

Each project begins with listening.
We work closely with architects and designers to translate concepts into material solutions, combining craftsmanship, advanced technologies and precise execution.

Our expertise spans a wide range of sectors, including residential, commercial, urban and nautical environments, delivering bespoke solutions tailored to each project's unique requirements.

Design

< TECHNOLOGIES

Advanced technologies allow us to enhance the performance of natural stone.
We develop solutions that expand the possibilities of marble in architecture and design:

- 1. Honeycomb >
- 2. Backlit Marble >
- 3. Electric floor heating >

< MONACO
YACHT SHOW

Our company has been exhibiting at the Monaco Yacht Show (MYS), the leading international event for the superyacht industry. Our presence reflects a commitment to excellence and innovation, offering the opportunity to connect with designers, naval architects, and shipyards while showcasing our expertise and exploring the latest trends in luxury yachting.

< MATERIKA BY MONDIAL MARMI

Materika is a product line by Mondial Marmi, specialized in the processing of basalt. This stone, valued for its exceptional physical and mechanical properties, has been used over time to create mosaics, glazed tiles, and decorative elements.

Through continuous innovation in glazing processes, Materika offers products that stand out for their unique shapes and colors. It represents a perfect balance between nature and technology, where artisanal expertise meets contemporary research to offer versatile, long-lasting, and highly expressive solutions, designed for demanding architecture and design.

< PRODUCTS

Expressions

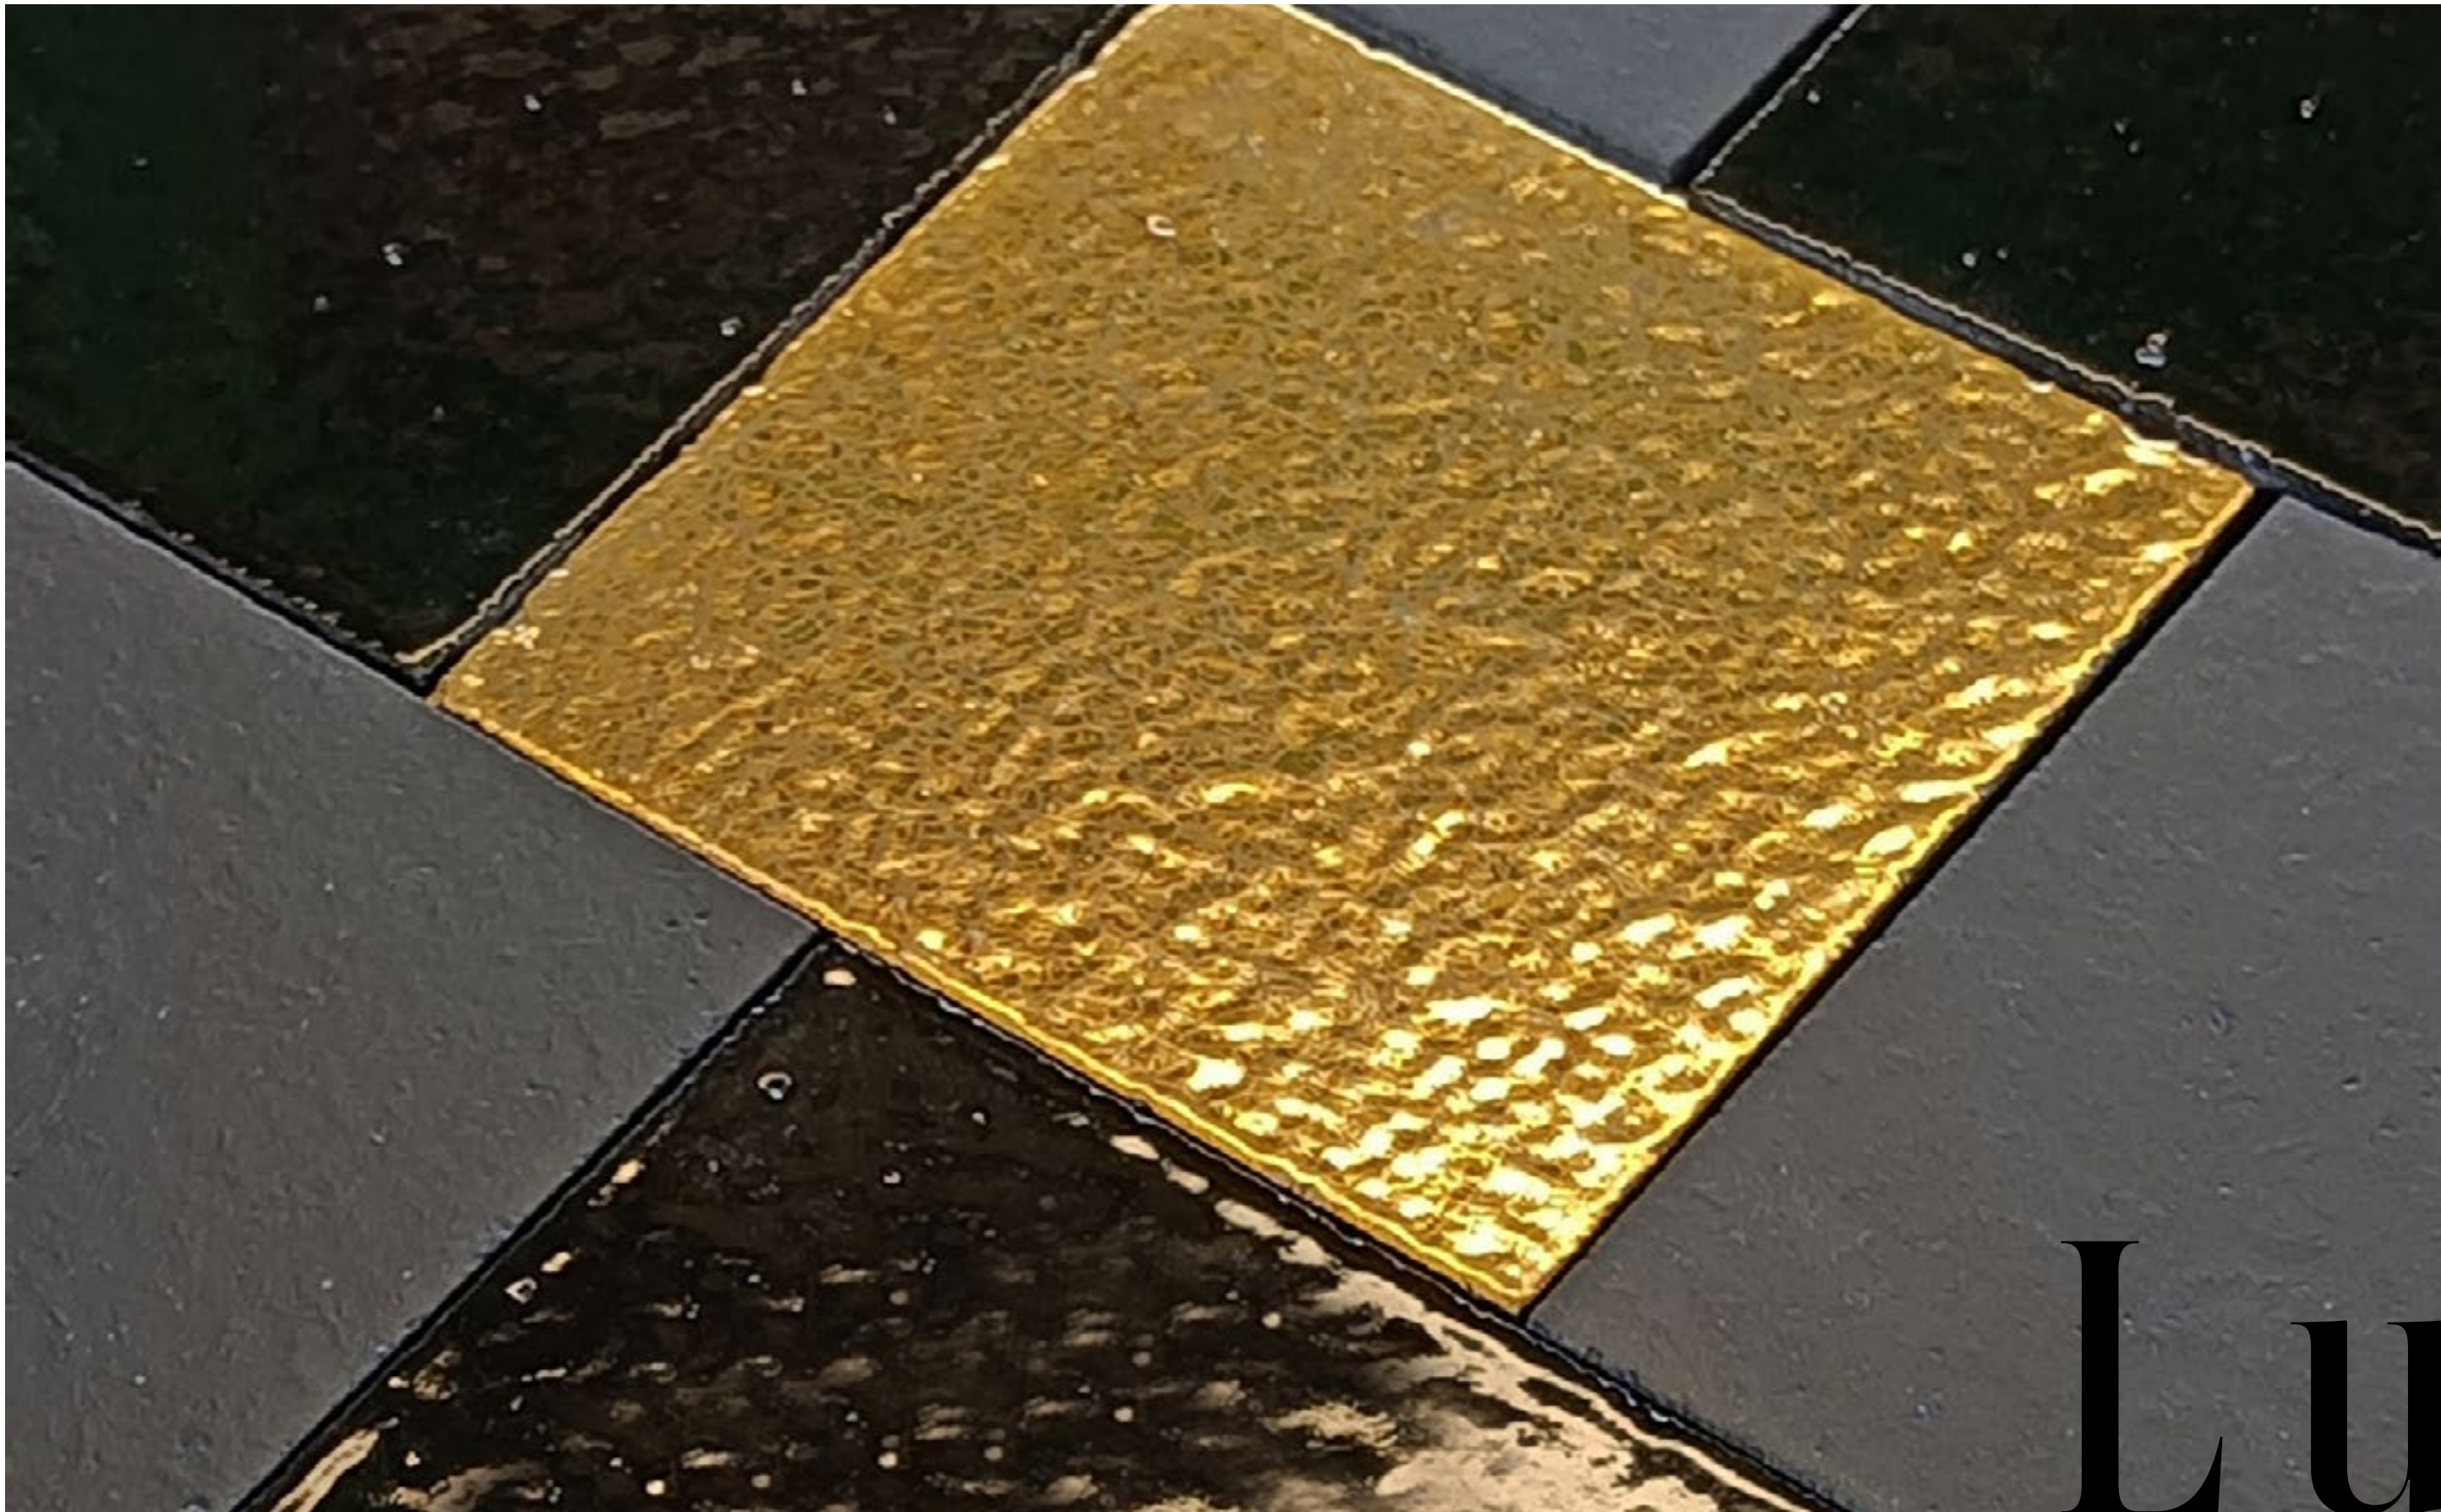

Materika is structured around two main variants: the **classic** line and the **antique** one. Two surfaces but the same product.

 [Click here to discover more about surfaces](#)

Both lines can be customized with a wide range of colors, including those from the **precious line**, which features finishes inspired by metals such as gold, silver, copper and various other metals.

< PRECIOUS COLOURS

The Precious line by Materika enhances basalt with glazes inspired by precious metals, creating luminous and elegant surfaces. Available in gold, copper, silver, and brass tones, it combines refined aesthetics, light effects, and durability, making it ideal for high-impact decorative cladding."

Luxury

< PROJECTS

Below are some concrete examples of projects carried out using Materika products, showing how glazed basalt, in its Classic and Antique variants, can be applied in various architectural and design contexts, combining aesthetics, functionality, and customization.
